Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-9, drawn to a method of discovering monitoring network resources, classified in class 709, subclass 224.
 - II. Claims 10-45, drawn a method sharing resource in mobile IP network, selecting target base on resources classified in class 709, subclass 226.
 - III. Claims 46-49, drawn network resource access controlling, classified in class 709, subclass 229.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions I, II and III, are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention I has separate utility such as discovery target routers by monitoring movement of network devices and transmitted beacon signal; invention II has separate utility allocate resources based on policy or specific characters of resource such as bandwidth, load, signal strength, etc.; invention II has separate utility, such as registering network resources for validation and restriction. See MPEP § 806.05(d).
3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification restriction for examination purposes as indicated is proper.
4. Because these inventions are distinct for the reasons given above and the search required for each of Groups I-III is not required for each of the other Groups, restriction for examination purposes as indicated is proper.

Art Unit: 2143

5. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.
6. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
